To Whom It May Concern,

We are writing to you after a concern was raised at the monthly meeting of Kilwinning Community Council.

A Community Councillor raised the fact he has saw several the elastic bands used by your employees on their mail rounds discarded at points around the town.

These are not only environmental but has caused a pet to require medical attention after it ingested one.

We are therefore writing to ask if you could get your employees to make sure they either dispose of these bands in a bin or return them to the delivery office.

Yours Sincerely.
